 OAKLEY

# PRIZM™ LENS TECHNOLOGY

Oakley Prizm™ Snow lenses are purpose-built for the specific wavelengths of light that reflect from snow to help you see contrast on the mountain in a variety of light and snow conditions.

**IMPROVED CONTRAST FOR DETECTING SNOW CONTOURS, TEXTURES & OBSTACLES.**

**ENHANCED CLARITY FOR DETECTING ICY, PACKED & POWDER SURFACES.**

**MULTIPLE LENS OPTIONS FOR EXCELLENT VISIBILITY IN A VARIETY OF LIGHTING & SNOW CONDITIONS.**

**DRAMATICALLY ENHANCED CONTRAST AND VISIBILITY OVER A WIDER RANGE OF LIGHT CONDITIONS.**

### **BRIGHT SUN**

Perfect for bright, sunny bluebird days with minimal cloud coverage

PRIZM BLACK IRIDIUM

### **SUN & CLOUDS**

Ideal on the days that mix clouds with sunshine

PRIZM DARK GREY

PRIZM SAPPHIRE IRIDIUM

PRIZM JADE IRIDIUM

PRIZM TORCH IRIDIUM

PRIZM ROSE GOLD IRIDIUM

PRIZM SAGE GOLD IRIDIUM

PRIZM GARNET

### **SNOW & OVERCAST**

# SNOW GOGGLE LENS TECHNOLOGY

## 100% UV PROTECTION

Oakley Plutonite® filters out 100% of all UVA and UVB.

The lens material itself blocks UV, so you don't have to rely on a thin surface coating that can wear away or become scratched.

Our optical technologies allow for lens curvature that improves protection at the top and sides of your eyes.

## OAKLEY HIGH DEFINITION OPTICS (HDO®)

Oakley High Definition Optics offers truer, more accurate vision versus conventional lenses.

Oakley snow goggle lenses are injection-molded under extreme pressure with high-impact Plutonite® to create a precise contour of optically correct geometry and clarity.

Optical Class 1 : Suitable for continuous use.

## IMPACT PROTECTION

Designed to protect against high-impacts, and tested to meet and exceed the impact requirements based on ANSI Z87.1 and EN 166 standards.

## ANTI-FOG PERFORMANCE

Oakley snow goggles are equipped with anti-fog technology that helps absorb moisture and eliminate haze, resulting in a confident ride all day long.

## LENS CURVATURE

Oakley snow goggles are available in two lens designs - toric and cylindrical. Toric lenses mimic the natural curvature of the eye for a seamless transition on the slopes, whereas cylindrical lenses offer a flatter shape for those that desire a low-profile aesthetic.

8

## FIT

Oakley offers up to three fits (S,M,L) in select goggles to accommodate the variety of head sizes, including youth.

FINAL PRODUCT MAY CHANGE FROM CAD IMAGE

# SNOW GOGGLE FRAME TECHNOLOGY

## O-MATTER FRAME

Oakley's soft, pliable O-Matter frame material helps our snow goggles conform to the contours of the face for all-day wear that is both durable and comfortable.

## TRIPLE LAYER FACE FOAM

Oakley snow goggles feature triple-density foam designed to keep you comfortable all day – two layers to mimic the contours of the face for a personalized fit, and one outer fleece layer that rests against the skin to wick away moisture.

## PRESCRIPTION COMPATIBLE

Oakley snow goggles come equipped with discreet prescription frame notches at the temples for compatibility with most prescription eyewear, allowing you to comfortably wear your glasses while on the mountain.

# SNOW HELMET TECHNOLOGY

## SECURE-CONNECT

Oakley's newest technology, Secure-Connect, integrates optics and helmet together for a completely new riding experience.

Secure-Connect magnetically connects and mechanically secures the lens to the helmet and face, both during riding and stowed positions.

10

## FIT

### SKULL MATRIX

MIPS® and BOA® technologies merge into a unique single system to create Skull Matrix. It's designed to provide a more adaptive fit and help enhance comfort for an improved riding experience.

## SIZING

Because one size does not fit all. Oakley helmets are developed to address anatomical differences between standard, youth, and Asian shaped heads while keeping all the key components of fit, protection, and optics integration.

### AERIAL VIEW

Overhead view of head and shoulders.

#### STANDARD

Designed for intermediate-oval head shapes.

#### YOUTH

Designed for youth-sized, intermediate-oval head shapes.

#### ASIA

Designed for round-oval head shapes.

| SIZE   | SIZE RANGE (CM) | HAT SIZE      |
|--------|-----------------|---------------|
| Small  | 51-55cm         | 6 3/8 - 6 7/8 |
| Medium | 55-59cm         | 6 7/8 - 7 3/8 |
| Large  | 59-63cm         | 7 3/8 - 7 7/8 |

| SIZE   | SIZE RANGE (CM) | HAT SIZE      |
|--------|-----------------|---------------|
| Small  | 49-53cm         | 6 1/8 - 6 1/2 |
| Medium | 53-57cm         | 6 5/8 - 7     |

| SIZE   | SIZE RANGE (CM) | HAT SIZE      |
|--------|-----------------|---------------|
| Small  | 53-57cm         | 6 5/8 - 7     |
| Medium | 57-61cm         | 7 1/8 - 7 1/2 |
| Large  | 61-65cm         | 7 5/8 - 8 1/8 |

## SHELL CONSTRUCTION

### IN-MOLD

Our lightest construction method, using a thin polycarbonate (PC) shell applied over an EPS foam liner. In-mold creates a low profile and lightweight design. When ounces count go in-mold. Example MOD1 (99505)

12

### HARD SHELL

Our most robust construction method, using an injected molded DURAMATTER shell applied over an EPS foam liner. DURAMATTER is dent and ding resistant, offering the highest level of durability. Throw it in your travel bag, leave it in the back of your car or locker, it can handle the abuse. Example MOD1 PRO (FOS900586)

### HYBRID

Our most sophisticated construction method, blending a strategic mix of durable hard-shell DURAMATTER and traditional lightweight polycarbonate, applied over an EPS foam liner. Hybrid designs are the perfect balance of weight and durability. Example MOD5 (FOS900641)

## PROTECTION

### MIPS

The Mips® safety system features a low-friction layer inside the helmet, generally between the padding and the EPS foam protective layer, that allows a multi-directional movement of 10-15mm on certain angled impacts, intended to help reduce rotational force to the head.

Safety for helmets

**1.** Traditional helmets are designed and tested for straight impacts, but most impacts are angled, which can cause rotational motion to the head.

**2.** The rotational motion can cause brain injuries.

**3.** The Low Friction Layer is intended to help reduce the rotational motion to the head in certain angled impacts.

13

### CHIN GUARDS

Designed to provide an extra layer of safety to help protect the racer's face. Available in ARC5 PRO, ARC5 and MOD1 PRO SL helmets.

## COMFORT & CONVENIENCE

### **POLARTEC® POWER GRID™**

A Polartec® patented grid construction head liner strengthens performance efficiency by increasing warmth and breathability, while also reducing fabric mass. These geometric patterns improve compressibility, wicking, and add technical style. By reinventing thermal warmth possibilities, Power Grid™ is a minimalist design that maximizes fabric performance.

14

### **FIDLOCK®**

Convenient magnetic fastening system.

**FIDLOCK®**

### **BOA® FIT SYSTEM**

The micro-adjustable BOA® Fit System provides fast, micro-adjustability for a customized and fine-tuned fit.

**ATHLETE / SIGNATURE SERIES**

SPYDER

# ATHLETE SIGNATURE SERIES

## CHLOE KIM

Not only is Chloe Kim an accomplished athlete and the youngest woman to win an Olympic snowboarding gold medal, but she's also an inspiring creative figure for the next generation of riders. Her signature goggle reflects her own creativity and was inspired by the feeling of freedom she experiences when flying through the air. With its soft color palette and tranquil patterns, her goggle appeals to anyone aspiring to take flight like Chloe.

Prizm Sapphire Iridium 007070-D9

18

## JAMIE ANDERSON

As the record holder for most female X Games medals (17), Jamie Anderson is the most-decorated female snowboarder of all time. Jamie's signature goggle reflects her personal style, passion for the outdoors, and admiration of those who take care of the spaces we play in. Her colors are a perfect representation of feminine strength, determination, and playfulness.

Prizm Black Iridium 007070-D8

Prizm Black Iridium 007070-D5

## MARK MCMORRIS

Mark McMorris is the definition of resilience. From overcoming multiple life-threatening accidents, winning two Olympic medals for Canada, and gracing 20 X Games podiums, Mark's career is marked with some of the biggest moments in the sport. Knowing how to stay grounded, his goggle is inspired by nature and earth tones. The brown monochromatic colors create a feeling of calm one only finds in the mountains.

19

Prizm Sage Gold Iridium 007104-65

## TORSTEIN HORGMO

Torstein has been and continues to be an innovator in the sport. He's won and competed in several slopestyle and big air events, mastered never-before-done tricks, and creates content that pushes the boundaries of snowboard culture. His goggle matches his creative personality – with inspiration from cosmic art, mechanical robots and musical dials, Torstein's imagination knows no bounds.

# ATHLETE SIGNATURE SERIES

## KAZU KOKUBO

Kazu's personality and skill has been imbedded in snowboarding for over two decades. He's represented Japan in two Winter Olympics and has had consecutive wins in the US Open half pipe. Now Kazu coaches and mentors up-and-coming snowboarders to fan their riding flames. That same fire is seen in Kazu's heart and is what inspired his dragon goggle design. The smoke represents the freedom you feel once you let your heart lead your journey.

Prizm Sage Gold Iridium 007070-D6

20

## SAGE KOTSENBURG

Sage Kotsenburg won the first-ever Olympic gold medal in men's snowboard slopestyle at the 2014 Olympics in Sochi, Russia, and has been pushing his limits since. His goggle reflects his appreciation of his upbringing and represents the future of humankind and the planet united. The graphic is the exact topo map of the mountain he grew up riding on, while the earth tones tell a personal story of Sage's belief around how we can become better stewards on earth.

Prizm Sage Gold Iridium 007070-E2

Prizm Black Iridium 007070-E1

## STÅLE SANDBECH

Ståle is known for his distinctive style and for going big, no matter the consequences. Throughout his multiple Olympic appearances and X Games medals in slopestyle, Ståle has cultivated a community following on and off the mountain. His goggle inspiration comes from his past signature pieces, but with a twist on his color palette so it creates a cohesive collection for any rider to enjoy.

21

# ATHLETE SIGNATURE SERIES

## MIKAELA SHIFFRIN

As 2x Olympic Gold Medalist, 3x FIS World Cup Overall Champion, 8x World Cup Discipline Champion, and winner of 66 World Cups, Mikaela Shiffrin is one of the greatest skiers of all time and a household name around the world. Her goggle inspiration comes from the Northern Lights. Her color palette mixes different shades of blue and light purple, and the pattern on the strap reflects the bright dancing lights of the aurora.

Prizm Jade Iridium 007050-B4 Prizm Jade Iridium 007064-C0

22

## ALEKSANDER AAMODT KILDE

Alexander Aamodt Kilde is the most recent of the "Attacking Vikings" to leave his mark on alpine skiing. Kilde is the reigning FIS Alpine Overall World Champion, 2016 Super-G champion, and a 2x Olympian for Norway. Inspired by the great Viking culture, Aleksander's signature goggle features symbols and imagery that pays homage to his Nordic ancestry.

Prizm Sapphire Iridium 007110-58

Prizm Dark Grey 007070-E0

## HENRIK HARLAUT

We all know Henrik Harlaut is known for his warm personality as well as being one of the best freestyle skiers in our time. With the most ski X Games podiums in history and other notable firsts, Henrik cultivates an eclectic style that can only be traced back to him. His signature goggle was inspired by colors from 80s and 90s pop culture. In true Henrik fashion, this goggle looks to the past while pushing style into the future.

23

Prizm Sage Gold Iridium 007070-D7

## SAMMY CARLSON

Sammy began his skiing career in the park and competition scene, consistently at the top of every podium. Wanting to carve his own path Sammy transitioned to pursuing his unique style and is now one of the world's best BC skiers. His goggle is influenced by a great samurai of medieval Japan and mimics the blade of a samurai sword on one side of the strap, and a clean forest green on the other.

**GOGGLES / ADDVAR**

# 007099 FALL LINE L

In skiing and snowboarding, taking the fall line refers to the line down a mountain that is most directly downhill - inspiring the cylindrical lens styling of this model. Fall Line is inspired by Line Miner and fusing the large field of view from a rimless goggle. Fall Line L is designed for a large fit.

# 007120 TARGET LINE L

Target Line pairs a jumbo cylindrical lens with a low-profile, ultra-sleek frame design for an incredible field of view. We flattened the brow line of the frame to create a seamless integration with Oakley helmets. Available in three sizes, this Sutro-inspired design offers style and function for any face size. Target Line L is designed for a large-sized fit.

## 009442 RADAR® EV ADVANCER™

Oakley® Radar EV Advancer takes the proven performance innovations of Radar EV to the next level with a taller lens shape that creates a new design aesthetic and Oakley® Advancer technology, which is designed to keep you cool and fog free in the toughest conditions, so athletes can move confidently and seamlessly at any speed.

Prizm Snow Black 009442-0938

Polished White  
Prizm Snow Sapphire 009442-1038

# 009208 RADAR® EV PATH®

Our original Radar® eyewear combined everything we learned from decades of research with the world's best athletes, and with the taller lens of Radar EV and its extended range of view in the upper peripheral region, the heritage of performance has a new milestone.

Polished White  
Prizm Snow Sapphire 009208-4738

Matte Black  
Prizm Snow Sapphire 009208-9738

## 009290 JAWBREAKER™

We extended the field of view in the upper peripheral region to optimize it for cycling, and once we added Switchlock™ Technology for easy lens changing, Jawbreaker™ became the ultimate sport design.

Polished White  
Prizm Snow Torch 009290-2131

## BLUEBIRD COLLECTION

**Sutro Lite**  
Matte Carbon  
Prizm Snow Sapphire 009463-1739

The Sutro family expands with a semi-rimless version of the popular style for greater field of view. Inspired by the daily life of urban cyclists, the high-wrap shield creates a bold, versatile look, protects from the elements and enhances vision with Prizm™ Lens Technology, while inspiring athletes to move confidently and seamlessly through their day.

**Flak® 2.0 XL**  
Steel  
Prizm Snow Sapphire 009188-G859

The XL edition offers a standard size frame with enhanced lens coverage, and every millimeter of the peripheral view is optimized with High Definition Optics™ in a durable yet lightweight design that takes performance to the next level and brings style along for the ride.

**Holbrook™**  
Steel  
Prizm Snow Sapphire 009102-U555

Holbrook is a timeless, classic design fused with modern Oakley technology. Inspired by the screen heroes from the 1940s, 50s, and 60s, this design epitomizes the spirit of exploration and adventure. The iconic American frame design is accented by metal rivets and Oakley icons, perfect for those who seek equal parts performance and style.

53

**Latch™**  
Steel  
Prizm Snow Sapphire 009265-5753

A fresh path from the trailblazers of style, this design inspired by influential athletes is shaped with a classic keyhole bridge and the curves of rounded lens orbitals, and we engineered it with the convenience of an interior kick-up feature that lets you clip it to your shirt.

**Gibston**  
Steel  
Prizm Snow Sapphire 009449-1760

Wrapped in style, Gibston is the latest high-wrap frame from Oakley®. The modern frame design offers full protection loaded with features that perform.

**HELMETS / NEW RELEASES**

## MOD 7

Inbound or off-piste, the MOD7 creates a seamless wearing experience between helmet and visor that offers an all-in-one package for any all-mountain adventure. Visionary Secure-Connect technology creates a cohesive design that not only signals the future of optics integration but sets a new standard for how visor helmets can perform. Combined with Prizm™ Lens Technology, the MOD7 is ready for any conditions and all terrain.

56

### SECURE-CONNECT

Oakley's proprietary helmet technology, Secure-Connect, seamlessly integrates optics and helmet as one for a completely new experience. Secure-Connect magnetically connects and mechanically secures the visor to the helmet, both in the ride and stowed positions.

### INTEGRATED PRIZM™ VISOR

The integrated visor features a dual lens powered by Prizm Lens Technology to improve contrast and enhance clarity for detecting snow contours, textures and obstacles, and an inner anti-fog lens.

### LENS-SEAL ADJUSTMENT

Built into the side of the helmet is an adjustment button that allows the visor to be pushed back into the wearer's face to help create a custom, comfortable seal.

### LENS EJECT BUTTON

Located on both sides of the visor, the lens eject button releases the visor from the helmet both in the ride and stowed positions.

### LENS LANDING ZONE

Located at the front/top of the helmet, the Lens Landing Zone allows the wearer to intuitively stow the visor in place just as they would a traditional goggle using Secure-Connect technology.

### DURAMATTER MIX SHELL

A hybrid-shell construction method using a mix of durable hard-shell DURAMATTER and traditional lightweight polycarbonate that creates a well-balanced design and is strategically applied to selected areas of the helmet.

### SKULL MATRIX

A unique integration that combines fit and protection allowing the helmet's internal retention system to wrap in all directions around the wearer's head, helping to enable a secure comfortable fit.

## MOD 5

With epic days in mind, the MOD5 was redesigned from the ground up to keep up with the endless pursuit of discovering more on the mountain. With input from some of the world's best big mountain athletes, every detail was analyzed, resulting in a feature-rich helmet that's equipped for exploration. No matter how you find it, the freedom of discovery is within reach and ready for the taking in the redesigned MOD5.

58

### DESIGN

The proportion, surface, and detail of the exterior shape deliver bold design and high functionality to the all-new MOD5.

### DURAMATTER MIX SHELL

A hybrid-shell construction method using a mix of durable hard-shell DURAMATTER and traditional lightweight polycarbonate that creates a well-balanced design and is strategically applied to selected areas of the helmet.

### SKULL MATRIX

A unique integration combining fit and protection that allows the helmet's internal retention system to wrap in all directions around the wearer's head, helping to enable a secure comfortable fit.

### VENTILATION

Temperature regulation is key to enjoying your time on the mountain. With multiple ventilation zones, airflow can be customized to help reduce goggle fogging and overheating.
