FALL WINTER 25/26

Inventing tomorrow since 1947

SALOMON

Trends change, technologies do too, sports and outdoor activities evolve. Occasionally, whole industries are redefined by a seemingly small change that quickly becomes such pervasive that it seems impossible there was ever a time “before”.

Steel edges, self-releasing heelpieces, forward-flexing ski boots... all born from the passion, engineering, and innovation of a company fascinated by the outdoors. Our innovation has been driven by generations of athletes, ambassadors, developers, and behind-the-scenes experts working tirelessly to advance the practice of our favorite sports and offer an opportunity to people to be their best selves.

To some, 1947 and 2025 are just years, to Salomon they mark a 78-year-long dedication to innovation and excellence. In Annecy we have been dedicated to inventing tomorrow since 1947 and continue to be excited about shaping the future.

“What fascinates me the most, is what I will do tomorrow.” George Salomon said it, the Salomon Family continues to live by it.

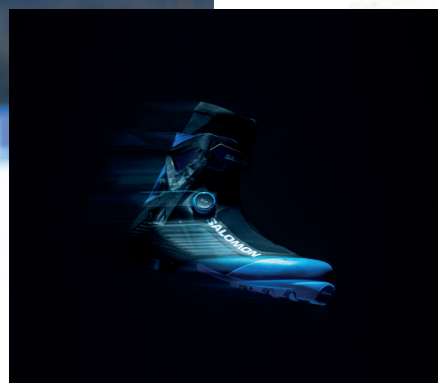

From winter racing podiums, to year-round outdoor adventures, we provide premium performance gear for every challenge.

For decades, Salomon Nordic has set the standard in Nordic sports with groundbreaking technology and a deep respect for nature. Our legacy is built on a relentless drive for excellence and a passion for the great outdoors.

A WINNING BRAND

We are committed to pushing the limits of performance. Our products embody the spirit of champions, equipping athletes to achieve their best and embrace every challenge with determination.

AN OUTDOOR BRAND

We honor the beauty of nature and are dedicated to preserving it. Our gear combines top performance with environmental responsibility, encouraging everyone to explore and protect the outdoors.

Driven by our heritage, we inspire athletes to embrace victory and cherish the natural world. Through innovation and sustainability, we lead the way in Nordic sports, empowering the next generation of champions.

SUMMARY

NORDIC SKIS

Discover Salomon Nordic Skis:
Your Gateway to Winter Excellence
Salomon Nordic Skis are the ticket
to a world of winter performance
and precision. With a legacy of
innovation and quality, Salomon is
the progressive brand for cross-
country skiers, from enthusiasts to
committed athletes.

S/LAB SELECT

BE TREATED LIKE WORLD CUP ATHLETES

Looking for the perfect skis to make the most out of your racing experience? With Salomon's S/Lab Select program you now have access to the exact same skis as our world cup athletes. Our team of experts will select your perfect pair based on with the same criteria as they use for top athletes

© Nordic Focus

S/LAB/

S/LAB SKATE

FAST, WHATEVER THE SNOW CONDITIONS

The G5% base and SL22 grind excel in the different snow conditions you may find on the race track. The movable Shift Race binding will finetune your performance.

OUTSIDE 82 GRIP

The ski for skiers looking for a new benchmark in backcountry skiing.

OUTSIDE **ROCKER**

The Outside Rocker construction improves terrain adaptation, planing, floatability, and footroll, making turns easier and bringing accessibility, and fun to Outdoor ski practice.

STEEL **EDGE**

The full-steel edges offer extra stability when venturing out of track.

WOOD**CORE**

Stable wood core with plastic reinforcement and fiberglass wrap.

GLOSSARY SKIS PICTOGRAMS

FEATURE	DESCRIPTION	FEATURE	DESCRIPTION
	This skin is made with 70% mohair and 30% nylon to deliver you a secure grip.		Specific camber that provides easy, complete contact of the grip zone with the snow during kick. Allows the reduction of ski length for more maneuverability.
	The balanced camber helps skiers stay stable and more balanced when gliding.		Secure grip.
	Specific camber developed to enjoy skating and classic skiing.		Embossed pattern for secure grip.
	100% mohair skin with equal balance of grip and glide. You can switch it manually if you want to use the eSkinRace to get into racing mode!		Light carving sidecut behind the foot and a wider platform at the frontfoot provide more control and stability, especially when descending out of the tracks.
	Built to improves glide and acceleration, it provides easy kick and compression when pressing with the forefoot, but remains lifted when pressing with the mid or rear of the foot.		More maneuverability when going up and down.
	More control and stability, especially when descending out of the tracks.		100% mohair skin with equal balance of grip and glide. It is glued so you need an iron to change it when burned (after approx. 800km).
	The tip to tail Thin Ply Carbon construction optimizes the torsional rigidity for improved energy transmission and power during the kick phase.		It delivers increased kick and acceleration in all snow conditions.
	Waxable base to grip		These 3/4 steel edges deliver extra stability to your skis, particularly when skiing out of tracks.
	Our best classic grind for cold conditions.		Salomon's most polyvalent construction so far features a triangle thickness profile which improves acceleration, while the balanced camber adds stability to every stride.
	Our latest classic racing concept is designed to amplify kick and acceleration. It offers ideal press adjustment, especially in klister snow conditions.		This skating racing concept is ideal in warm and wet snow conditions. The triangle thickness profile improves acceleration while the balanced camber adds stability to every stride.
	Our latest classic racing concept is designed to amplify kick and acceleration. It offers ideal press adjustment, especially in universal snow conditions.		This ultra-light foam core is made with fiber glass laminate to provide you with an easy kick in classic and efficient transmission in skating.

FEATURE	DESCRIPTION	FEATURE	DESCRIPTION
29 ZERO	Our latest classic racing concept is designed to amplify kick and acceleration. It offers ideal press adjustment, especially in snow conditions around zero degrees Celsius.	 DENSOLITE 1000	Light and consistent core made with uni-directional fiberglass wrap and pre-shaped Densolite foam.
34 COLD	Our latest skating racing concept is ideal in cold snow conditions. The triangle thickness profile improves acceleration, while the balanced camber adds stability to every stride.		
 DENSOLITE 2000	Light, consistent and torsion stiff core made with bi-directional fiberglass wrap and pre-shaped Densolite foam.	G3 BASE	Performance base.
 DENSOLITE 3000	Light, consistent and responsive core made with carbon and fiber glass wrap with pre-shaped Densolite foam core.	G4 BASE	Racing base with additive for better wax absorption and retention.
G1 BASE	Solid base.	G5 COLD BASE	World Cup base delivering maximum performance in cold conditions.
G2 BASE	Solid base.	G5 UNIVERSAL BASE	World Cup base delivering maximum performance in universal conditions.
G2 PLUS	No wax pattern for very good kick and consistent glide.	G5 WARM BASE	World Cup base delivering maximum performance in wet, spring conditions. For unmatched performance, activate the base with competition wax.
G2 SYNCHRO	No wax pattern with dual gripzone that provides a smooth transition for consistent kick and very good glide.	G5 WARM EDGED BASE	A World Cup base that delivers maximum performance in wet, spring-like conditions. It is reinforced with black edges to offer the most grip in icy conditions.
G5% BASE	This World Cup base delivers maximum performance in a wider range of conditions.	 OUTSIDE SIDE CUT	Specific Outsidecut ingeneered to make BC skis progressive and easy to turn with more control, input and stability.
 INNOWAVE	An ultralight honeycomb core made with paper, glue and thin wood sidewalls offers optimum consistency and optimizes energy transmission.	 OUTSIDE SKIN	The Outside Skin will give you the strongest grip you'll need for steep uphill or when you'll pull your pulka. Easy to put on and out.
MY CUSTOM SKI	Our high-quality production process enables you to select the exact ski you need based on your bodyweight.	PERF PERFORMANCE GRINDING	Low pressure, robust stone grinding for easy glide in all snow conditions.

FEATURE	DESCRIPTION	FEATURE	DESCRIPTION
 NOMEX	Ultra-light composite honeycomb core, combined with carbon, fiberglass wrap and thin wood sidewalls. Reduces weight and provides optimum consistency.	 S-CORE 45	Blending the proven durability of Densolite with the lightness of recycled PET foam, the S-Core 45 uses nine (201mm ski) recycled plastic bottles to make 45% of the core's weight.
 OUTSIDE PARTIAL SKIN	The BC Partial Skin will improve the grip of your BC skis when needed in icy conditions while keeping a good glide. Easy to put on and out.	SL21 WARM GRIND	Our most polyvalent skating grind is adapted to changing conditions, so your skis stay performant when snow gets warmer and more wet.
 OUTSIDE ROCKER	Specific S-Rocker is improving terrain adaptation, plaining an floatability to make turns easier and foot roll bigger. All these aspects will make your downhill and deep snow progression fun.	SL22 UNI GRIND	Our most polyvalent grind performs in conditions ranging from cold to warm snow.
SL32 WARM GRIND	Our best classic grind for wet/spring-like conditions.	 THIN PLY CARBON	The tip to tail THIN PLY CARBON construction optimizes the torsional rigidity for improved energy transmission and power during the kick phase.
S/LAB/ SELECT	Handed-picked for you by our S/LAB Select team from the same ski stock our World Cup athletes pick from, these skis take your performance to the highest level.	 WOODCORE	Stable wood core with plastic reinforcement and fiberglass wrap.
 STEEL EDGE	The full steel edges are particularly helpful on hard snow and when venturing out of tracks as they bring extra stability to the ski.	WC WORLD CUP GRINDING	Developed in collaboration with our athletes, this grind provides the fastest glide available in cold and dry snow conditions.
 STEEL EDGE	The full-steel edges offer extra stability when venturing out of track.	 WC WORLD CUP UNIVERSAL GRINDING	Developed in collaboration with our athletes, this extremely polyvalent grind provides you with the fastest glide available.
 STRINGER CORE	The reverse fishbone-shaped Stringer Core minimizes the volume of raw material used in the ski's core, while maintaining the structural integrity and torsional rigidity of the ski.	 SYNCHRO GRIP	Secure grip.
 THIN EDGE	The thin edge provides great grip and makes it easier to transfer from one leg to the other.		

Salomon Nordic Bindings redefine precision and control, serving as the vital connection between your boots and skis. Crafted with Salomon's trademark innovation and expertise, these bindings cater to the needs of cross-country skiers, from recreational adventurers to elite racers.

OUTSIDE

The light, progressive, reliable binding for outdoor efficiency.

BC LEVER

Designed for BC practices, this lever allows easy step-in with your pole if needed and easy step-out with a specific strap, ensuring safety for wild adventures.

BC FLEXOR

Evolve without limits in the backcountry with our dedicated binding and flexor, designed to enhance your stride and provide a lightweight feel during the aerial phase.

490 G

These lightweight bindings deliver all the performance you need for backcountry adventures without any unnecessary weight.

BACKCOUNTRY

NEW

BC OUTSIDE

L47875700+

The light, progressive, reliable binding for outdoor efficiency.

The BC Outside binding is designed for off-track adventures, offering lightness, progressiveness, and reliability. Engineered for straightforward efficiency in outdoor activities, it instills confidence and progressiveness while maintaining top performance in backcountry sessions. It is compatible with BC norm boots.

WEIGHT (g/pair)	FLEX

S/MAX CLASSIC

The stability and precision needed to reach your next level.

3D CLASSIC CHASSIS SYSTEM

This chassis, specifically designed for classic practice, offers increased heel stability, optimized energy transmission, and excellent torsion rigidity.

SECOND SKIN CONSTRUCTION

The lacing system is directly fixed on the external envelope of the boot. When pulling the lacing system, the boot is perfectly wrapping your foot, like a second skin.

CARBON LOADED

Offering up to 20% more flexion and torsion stiffness, this carbon shell can be shaped into more complex shapes which bring more anatomic rigidity in shin and calf areas.

S/LAB SKATE JUNIOR

L47030800+

A high-performance racing boot tailored to junior racers’ skating needs.

This skate boot fine-tunes Salomon’s World Cup-winning S/Lab Carbon loaded technologies to best perform with the weight and morphology of junior athletes. The adjustable heel strap, dissociated lacing and second skin construction offer stability and energy transmission, while the Thinsulate 78% Recycled lining makes it warm.

S/RACE SKIATHLON JUNIOR

Multi-discipline performance for young skiers doing skating and classic.

GLASSFIBER LOADED

Made with injected fiberglass to maintain lightness, this material enhances the boot’s mechanical properties, boosting rigidity in both torsion and flexion.

ERGONOMIC 360°

The Ergonomic, 30% glass fiber, 360° cuff with strap going fully around the ankle offers anatomic support and a direct connection to the chassis for more rigidity and support.

3D SKATE

Injected plastic chassis, allows heel support and good torsional rigidity to optimize power transfer.

S/RACE SKIATHLON JUNIOR

L47849100+

Multi-discipline performance for young skiers doing skating and classic.

Designed for both skating and classic, Salomon's S/Race Skiathlon Junior boots offer superior lateral support and ideal flex. The 30% glass fiber cuff with a 360° adjustable strap ensures a perfect calf fit, SensiFit™ and dissociated lacing provide precise foot wrapping, while fleece lining and recycled Thinsulate™ insulation add warmth.

ESCAPE OUTPATH

From backyard to wild nature, the perfect boot for your winter adventures.

MICRO FLEECE

This warm lining offers additional insulation and warmth.

WATERPROOF ZIPPER

Designed to better protect your feet from snow and water, this waterproof zipper covers the laces and ensures your feet stay dry longer.

ERGONOMIC 360°

The Ergonomic, 30% glass fiber, 360° cuff with strap going fully around the ankle offers anatomic support and a direct connection to the chassis for more rigidity and support.

NEW **ESCAPE OUTPATH**
L47848800+

From backyard to wild nature, the perfect boot for your winter adventures.

Designed for more comfort and support on both groomed and ungroomed terrains, Salomon's Escape Outpath boots have a warm Thinsulate™ liner with SensiFit™ construction for precision and warmth. The 30% glass fiber reinforced cuff provides excellent stability, while the waterproof zipper and adjustable gaiter ensure you stay dry.

GLOSSARY BOOTS PICTOGRAMS

FEATURE	DESCRIPTION	FEATURE	DESCRIPTION
 CLASSIC FLEX	Stability, control and power transmission. Good forefoot flexion for classic style and stiff rear part for perfect torsion to flexion rigidity ratio.	 CARBON SKATE	This light S/LAB Skate carbon fiber chassis combines exceptional power transmission, control and torsional strength.
 COMBI FLEX	Stability, control and power transmission. Good forefoot flexion for classic style and stiff rear part for perfect torsion to flexion rigidity ratio.	 RACING SKATE	Directly connecting to the cuff, the chassis features a 3D heel cup extended by a blade all the way to the toes area, resulting in increased torsion rigidity and transmission.
 SKATING FLEX	Control and power transmission with good lateral stability.	 CARBON CLASSIC	This light S/LAB Classic carbon fiber chassis features a perfectly homogeneous flex, located under the metatarsal area, for a perfect kick in classic.
 JUNIOR FLEX	Specific combi flex adapted to juniors.	 3D SKATE	Injected plastic chassis, allows heel support and good torsional rigidity to optimize power transfer.
 TOURING FLEX	Specific flex for touring skiers, with a natural forefoot rolling.	 CARBON 3D CLASSIC	The carbon fiber chassis combines lightness, excellent power transmission, support, control and exceptional torsional strength, while keeping a suppler front area for classic
 3D CHASSISSYST M CLASSIC	This chassis, specifically designed for classic practice, offers increased heel stability, optimized energy transmission, and excellent torsion rigidity.	 3D CLASSIC	Injected plastic chassis, allows heel support and good torsional rigidity to optimize power transfer.
 CARBON LOADED	Made with injected carbon fiber, this material allows for precise definition of the rigidity of the cuff and accurate placement of the support based on its geometry.	 THERMO FORMED HEEL COUNTER	Internal thermo-formed reinforcement for more stability and comfort.
 3D CHASSISSYST EM SKATE	This chassis, specifically designed for skating practice, offers increased torsion rigidity and more efficient energy transmission.	 ERGONOMIC TOE CAP	This Ergonomic Toe cap enhances the roominess of the toebox and provides increased protection for the toes.
 RACING CLASSIC	The chassis features a 3D heel cup extended to the toes' area by a blade, resulting in increased torsion rigidity and the ability to precisely position and adjust the flex.	 ERGONOMIC HEEL CAP	This Ergonomic Heel cap increases the stability of the heel, improving heel support and your balance.
 RACING SKIATHLON	The chassis features a 3D heel cup extended to the toes' area by a blade, resulting in increased torsion rigidity and transmission, and the ability to specify the flex.	 GLASSFIBER LOADED	Made with injected fiberglass to maintain lightness, this material enhances the boot's mechanical properties, boosting rigidity in both torsion and flexion.
 ERGONOMIC TOURING	Semi-rigid cuff around the ankles that provides lateral and rear support for better stability and control.	 ENERGYZER 2.0	This cuff offers more back proprioception to help with balance. The back support lowers fatigue in difficult snow condition and helps you ski longer.
 PERFORMANCE	Lateral support and transmission to provide excellent support for combi boots and allow ankle freedom for classic.	 SLAB	

GLOSSARY BOOTS PICTOGRAMS

FEATURE	DESCRIPTION	FEATURE	DESCRIPTION
 RACING SKATE	Built to offer more lateral support and transmission, this cuff offers direct connection to the chassis.	 EVA PAD	The EVA padding inside the cuff provides exceptional comfort while ensuring a maximum contact zone for precise control.
 CARBON LOADED	Made with injected carbon fiber, this material allows for precise definition of the rigidity of the cuff and accurate placement of the support based on its geometry.	 SLAB	Made with injected fiberglass to maintain lightness, this material enhances the boot's mechanical properties, boosting rigidity in both torsion and flexion.
 WOMEN ANATOMIC	This women-specific cuff respects the anatomy of the female lower leg, provides the right level of support and can be perfectly adjusted to a variety of calf shapes and diameters.	 ANKLE STRAP	This strategically placed ankle strap allows skiers to perfectly adjust the boot 's upper to the morphology of their feet, for more fine-tuned ankle support.
 ERGONOMIC 360°	The Ergonomic, 30% glass fiber, 360° cuff with strap going fully around the ankle offers anatomic support and a direct connection to the chassis for more rigidity and support.	 ERGONOMIC THERMOFORMED	The internal thermo-formed cuff offers enhanced yet ergonomic support for more comfort.
 SENSIFIT™	Providing extremely precise and comfortable foothold to feet ranging from narrow to wide.	 RACING	Comfort, support and power transmission.
 SENSIFIT™ RACE	This innovative SensiFit™ technology is strategically positioned on the shell to perfectly hold the liner and your foot in place, offering perfect foot wrapping and precision.	 HYPER SOFT	Extra comfort layer.
 SECOND SKIN CONSTRUCTION	The lacing system is directly fixed on the external envelope of the boot. When pulling the lacing system, the boot is perfectly wrapping your foot, like a second skin.	 DISSOCIATED QUICKLACE™	Salomon's patented technology, the dissociated lacing system allows adjustment of forefoot or upper foot tightening by pulling different parts of the Quicklace™.
 ADJUSTABLE HEEL STRAP	Providing extremely precise and comfortable foothold to feet ranging from narrow to wide.	 QUICKLACE™	Salomon's well-known one-pull lacing system for precise and snug fit allows fast and easy lace adjustment.
 HEEL STRAP	Integrated band over the back of the heel that provides added heel-hold for more performance.	 BOA® FIT SYSTEM	Engineered for the toughest conditions the BOA® Fit System delivers micro-adjustable precision fit, superior heel hold and a excellent foot wrapping that enhances ski control.
 TOURING	Comfort and warmth.		

GLOSSARY BOOTS PICTOGRAMS

FEATURE	DESCRIPTION	FEATURE	DESCRIPTION
 SHELL LINER CONSTRUCTION	Salomon's most advanced construction, featured on S/LAB and S/RACE boots, has a high-performing outer shell and an exchangeable liner that delivers perfect fit over time.	 PROLINK TOURING	This outsole is designed to offer stability and transmission.
 SLAB LINER CONSTRUCTION	Salomon's most advanced boot construction features a high-performing outer shell and an exchangeable liner that delivers perfect fit over time.	 PROLINK JUNIOR	Stable, easy walking outsole providing the optimum balance between flex and torsional rigidity for juniors. Specific polymer ensures good grip and durability.
 RACING LINER CONSTRUCTION	This liner construction provides a racing fit catering to a wide range of athletes and features a double step-in strap for ease of use. Customizable to your feet in 10 min.	 PROLINK PERFORMANCE SKATE	This low-profile performance outsole offers abrasion resistance and rigidity, maximizes power transfer, and delivers exceptional snow feeling and torsional rigidity for skating.
 MICRO FLEECE	This warm lining offers additional insulation and warmth.	 PROLINK RACING CLASSIC	This racing outsole with low profile offers abrasion resistance and flexibility, maximizes power transfer, and delivers exceptional snow feeling and optimum flex for classic.
 FAUX FUR	Warmth and inviting comfort especially for sensitive feet.	 PROLINK RACING SKATE	This racing outsole with low profile offers abrasion resistance and rigidity, maximizes power transfer, and delivers exceptional snow feeling and torsional rigidity for skating.
 PROLINK PERFORMANCE CLASSIC	This performance outsole with low profile offers resistance and flexibility, maximizes power transfer, and delivers exceptional snow feeling and optimum flex for classic.	 PROLINK LAB CLASSIC	Racing outsole designed to maximize kick feeling, with a low profile for exceptional snow feeling and optimum flex for classic.
 PROLINK LAB SKATE	This outsole had been designed to be as light as possible and offer optimized feeling and transmission.	 CUSTOM FIT™ RACE	Available on all S/LAB and S/RACE boots, the liner's Custom FIT™ RACE technology increases customization options around the ankle, heel and metatarsal areas.
 PROLINK SPORT	This light and responsive outsole provides the optimum balance between flex and torsional rigidity. It is designed with a low profile for exceptional snow feel and good grip.	 WATERPROOF ZIPPER	Designed to better protect your feet from snow and water, this waterproof zipper covers the laces and ensures your feet stay dry longer.
 WATERPROOF LACE COVER	This lace cover is made from fully waterproof materials, ensuring your feet stay dry in any weather or snow conditions.	 CLIMASALOMON™ WATERPROOF MEMBRANE	Salomon's highly waterproof ClimaSalomon™ WP Membrane tests at 100.000 mm on the Schmerber scale, where more than 30.000 mm is already considered suitable for extreme conditions.
 DOUBLE STEP-IN STRAP	Conveniently placed on the top of the tongue and cuff, these two small straps make it easier to open the boot and step in.	 GAITER HOOK	The gaiter hook simplifies adding a gaiter to your boots, enhancing protection against snow and water.
 CUSTOM FIT™	Combination of comfort foam, thermo-moldable foam and lycra provide ultimate fit and comfort to every foot's morphology.		

GLOSSARY BOOTS PICTOGRAMS

FEATURE	DESCRIPTION	FEATURE	DESCRIPTION
 100 RACING FIT	Performance last for maximum foothold and precision.	 105 TOURING FIT	Generous anatomical shape for maximum comfort and warmth.
 100 WOMEN RACING FIT	Performance last for maximum foothold and precision. Specifically adapted to women's morphology thanks to a narrower heel and instep volume.	 105 WOMEN TOURING FIT	Generous anatomical shape for maximum comfort and warmth. Specifically adapted to women's morphology thanks to a narrower heel and instep volume.
 102 PERFORMANCE FIT	Medium volume for maximum foothold, high comfort and precise fit.	 JR JUNIOR FIT	Specific fit for kids and juniors, it puts no constraints on growing feet while being comfortable and warm.
 102 WOMEN PERFORMANCE FIT	Medium volume for maximum foothold, high comfort and precise fit. Specifically adapted to women's morphology thanks to a narrower heel and instep volume.		

NORDIC POLES

Salomon Nordic Poles combine precision and power for exceptional cross-country skiing experience. Crafted with Salomon's renowned innovation, they balance lightweight design and durability. Elevate your Nordic adventure with Salomon, your partner for excellence on the snow.

GLOSSARY POLES PICTOGRAMS

FEATURE	DESCRIPTION	FEATURE	DESCRIPTION
 RACING BASKET M	This intermediate racing basket, designed with an aerodynamic shape, provides good flotation on all types of snow. It is perfectly suited for tubes with a 9 mm diameter at the tip.	 EVA GRIP	The Eva Grip with foam on the handle guarantees a more comfortable grip during your Nordic escapes.
 ROLLER SKI TIP	Specifically designed for roller ski training, this tip is made of durable materials that can withstand many kilometers of pole plants on concrete.	 MONO GRIP	The durable grip ideal for rental poles.
 S/LAB BASKET L	A light, aerodynamic and stiff basket which provides optimum performance. The perfect fit for shafts with a 9mm diameter tip.	 S/LAB CARBON GRIP	The S/LAB Carbon grip works perfectly with the Powerstrap 2 so you can experience maximized energy transmission.
 S/LAB BASKET M	A medium aerodynamic basket which provides a good level of support in all kinds of snow. The perfect fit for shafts with a 9mm diameter tip.	 S/LAB CLICK	Improved comfort with the redesigned S/LAB FIT CLICK system. The thinner strap and single-click mechanism provide superior grip and don't require removing your poles.
 TOURING BASKET	A larger basket for more flotation in powder. The perfect fit for shafts with a 11mm diameter tip.	 ALU	These poles' strong aluminum shaft ensures the durability and stability young skiers need.
 ERGO CLICK	The Ergoclick system allows for single finger click-in and click-out so you can drink or remove your skis easily during your sessions.	 CARBON 100% PRO	This pure carbon shaft has a 16mm diameter at the top and tapers down to 9mm near the tip.
 CARBON 100% RACE	This full carbon shaft provides the perfect combination of rigidity and lightness.	 EASY LOCK SYSTEM	This locking system makes it easy to adjust the pole's length to different uses.
 CARBON 100% S/LAB	The full carbon shaft with an engineered shape for optimized swing.	 BIATHLON	Our basic strap is easy to put on and take off.
 CARBON 20%	A 20% carbon shaft with a 16mm diameter at the top that tapers down to 9mm near the tip.	 POWER CLICK	Made with reinforced and stiffer materials for durability, this easily adjustable strap offers precise fitting for optimum power transmission.
 CARBON 30%	A 30% carbon shaft which has a 16 mm Ø at the top and tapers down to a 9 mm Ø near the tip.	 POWER	The easily adjustable, precisely fitting strap providing you with enhanced performance.
 CARBON 60%	A 60% Carbon shaft: with a 16mm diameter at the top that tapers down to 9mm near the tip.	 RENTAL	This simple and durable strap is designed for adults who enjoy skiing.
 COMPOSITE	This composite shaft has a 16mm diameter at the top and tapers down to 11mm near the tip.	 S/LAB FIT CLICK	Thanks to its 3 setting and a redesigned mesh strap, you can adapt where the S/LAB FIT CLICK strap clicks into the pole and make it perfectly fit your specific needs. The revamped, single-click S/LAB FIT CLICK thinner strap increases convenience and comfort, so biathletes no longer need to remove it when shooting.
